APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. A substantial headgate and measuring device must be installed and maintained to facilitate the measurement and control of water. The State retains the right to regulate the use of the water herein granted at any and all times.

The permit granted herein carries with it no provision or guarantee for the continuous use or availability of the water since the source is treated effluent.

This permit is issued for direct diversion of 0.20 c.f.s., therefore, secondary permits will not be required.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.20 cubic feet per second, and not to exceed 75 acre-feet per year, but not to exceed a yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before October 17, 1987

Proof of completion of work shall be filed on or before November 17, 1987

Application of water to beneficial use shall be made on or before October 17, 1990

Proof of the application of water to beneficial use shall be filed on or before November 17, 1990

Map in support of proof of beneficial use shall be filed on or before November 17, 1990
